Data Note: Household population includes persons not residing in group quarters. Average Household Size is the household population divided by total households.
 Persons in families include the householder and persons related to the householder by birth, marriage, or adoption. Per Capita Income represents the income received by all persons aged 15 years and over divided by the total population.

Data Note: Households with children include any households with people under age 18, related or not. Multigenerational households are families with 3 or more parentchild relationships. Unmarried partner households are usually classified as nonfamily households unless there is another member of the household related to the householder. Multigenerational and unmarried partner households are reported only to the tract level. Esri estimated block group data, which is used to estimate polygons or non-standard geography.
