School News

At Tremont Grade School, we have a group of students who participate in a Sensorimotor group every week. This fun group is led by Nancy Reed, physical therapy assistant, and Julie Bosley, occupational therapist. The goal of our Sensorimotor group is to prepare our children for Kindergarten. Kindergarten can be really hard work for many children! Our awesome therapists help the students acclimate to the structure involved in circle-time. During circle-time, students need to be able to remain seated for extended periods of time, take turns, and raise their hands to talk. They also work on gross motor skills and sensory components by working on strengthening and motor planning. Students imitate movements, jump over obstacles, walk a balance beam, and participate in other fun tasks. The group also works on fine motor and visual perceptual skills with cutting, coloring, and gluing with simple multi-step crafts.

The best part is the themes! Recently, you might have seen our kiddos brushing teeth, celebrating the Chinese New Year, or getting ready for the Super Bowl. Mercer Meyer's book, *Just Going to the Dentist*, was the perfect way to start the unit on brushing teeth. The therapists reviewed proper dental hygiene with the students. Then they watched a video of a walrus with very big "teeth" (tusks) doing exercises! Of course, they all got up and exercised right along with the walrus. The students then walked like a walrus and brushed a walrus' "teeth" with a big weighted toothbrush. Finally, they got to practice their cutting and gluing skills as they made a walrus. The Chinese New Year was celebrated by making lanterns and by having a parade with a dragon. For the Super Bowl, football warm-ups were completed, the ball was thrown through a hoop and also kicked, and football helmets were decorated and put on popsicle sticks to use to cheer on their team. It's amazing to see the progress and skills the students gain throughout the year! In addition, it is just plain fun!
